

Attribute Tooltip and Images

Installation/User Guide

Installation Process:

Note: Please take a backup of your all Magento files and database before installing or updating any extension.

Extension Installation:

- Download the Attribute Tooltip and Images .ZIP file from the Magento account.
- Log in to the Magento server (or switch to) as a user, who has permission to write to the Magento file system.
- Create folder structure **/app/code/Solwin/attribute-tooltip-image/** to your site root directory
- Extract the contents of the .ZIP file to the folder you just created
- Navigate to your store root folder in the SSH console of your server:
- Run upgrade command as specified : **php bin/magento setup:upgrade**
- Run deploy command as specified : **php bin/magento setup:static-content:deploy -f**
- Clear the cache either from the admin panel or command line **php bin/magento cache:clean**
- Now, you can see the Solwin menu in the admin panel. Please go to **Solwin -> Attribute Tooltip And Image -> Configuration** and select **Enable** to Yes.
- Change/Set all other options as per your requirements and save settings.

Overview:

The Attribute Tooltip and Images extension for Magento 2 adds a custom tooltip to the attributes for the Magento website.

The tooltip can display as text and/or image.

The Attribute Tooltip and Images extension for Magento 2 provides an option to show an image for an individual attribute.

Once the store owner enables the “Visible on Product View Page on Front-end” option then the attributes tooltip image displays on the product detail page.

The Attribute Tooltip and Images displays on the product filtering option in the filtering blocks, in configurable product options, and the product More Information tab.

The extension provides several options from the admin side for the tooltip like,

- Maximum & Minimum width
- Position of tooltip
- Tooltip layout
- Animation effect & speed
- Tooltip arrow color
- The delay time for tooltip

Key Features:

The Extension provides the below features:

- Displays on the product detail page in additional information block, for configurable product options, and in filtering block on the category page.
- Tooltip position can change in the top, right, bottom, or left, and combinations of all these.
- There are 5 theme layouts for the tooltip.
- Set Minimum and Maximum width of the tooltip it can fix as per content.
- Tooltip displays textual data and images.
- The store owner can add the icon HTML for the tooltip.
- “Show Content As HTML” option to display any HTML structure, which interprets the data as HTML.
- Different animation effects like fade, grow, slide, fall, swing, etc.
- Allows to set speed of the animation.
- Tooltip effect can be changed from the admin control panel, i.e., it display on click or hover.
- Allows the store admin to set tooltip delay time.
- Allows to choose tooltip arrow color.

Admin control panel:

How To Configure

In the admin control panel, the administrator can manage attribute tooltip image and description.

1. Go to **STORES >> Attributes >> Product**.
2. Select Particular Attribute.
3. In the **Storefront Properties** section, upload attribute image and set attribute tooltip content, and save attribute. View the below screenshot for more details.

The screenshot displays the configuration interface for an attribute. It includes several settings with dropdown menus:

- Use for Promo Rule Conditions: Yes
- Visible on Catalog Pages on Storefront: Yes
- Used in Product Listing: Yes
- Used for Sorting in Product Listing: Yes

Below these are two buttons: "Show / Hide Editor" and "Attribute Image". The "Attribute Image" section shows a "Browse..." button, a "No file selected." message, and a list of allowed file formats: .jpeg, .jpg, .png, .gif. There is also a "Delete Image" checkbox.

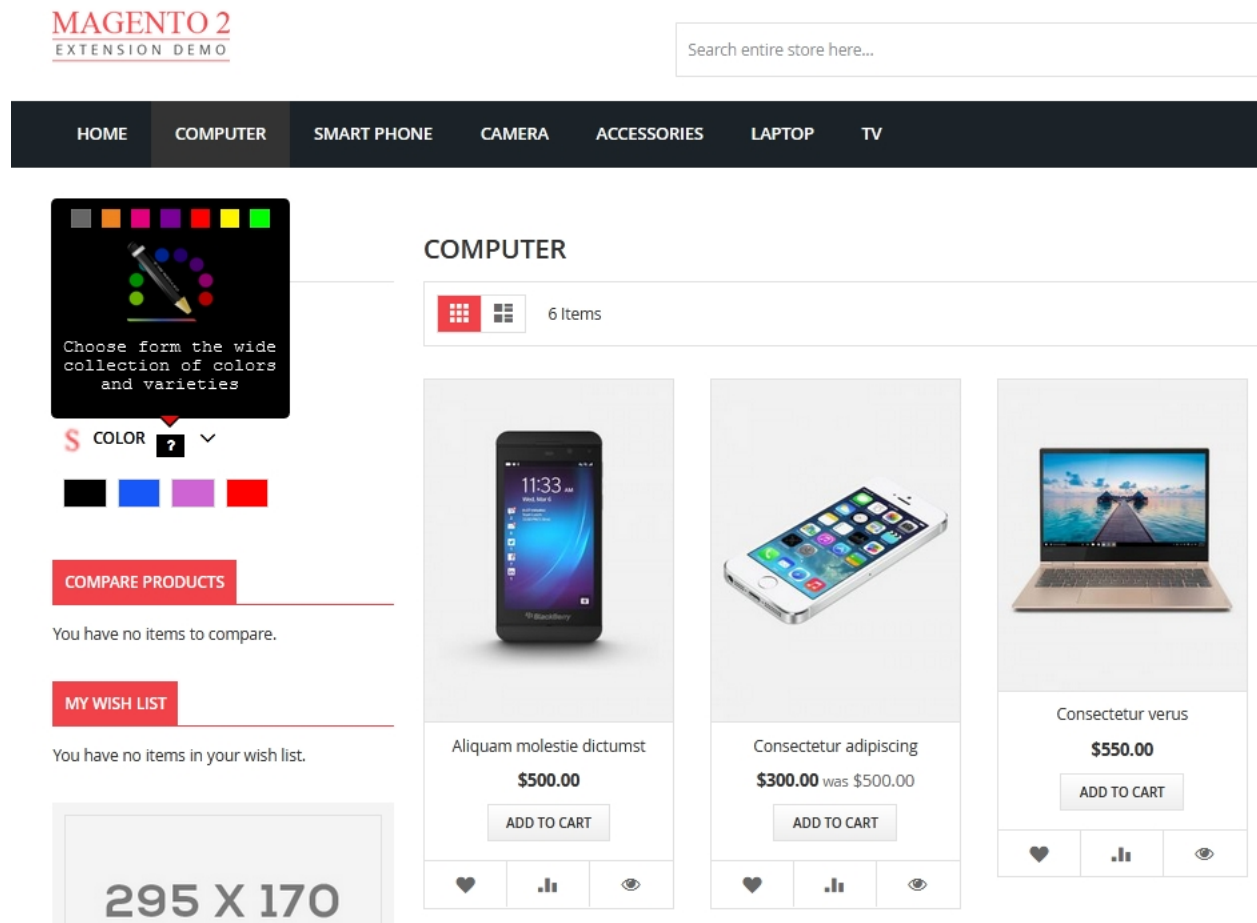

The "Tooltip" section features a rich text editor with a toolbar containing various icons for text formatting, alignment, and insertion. Below the toolbar is a color selection tool with a grid of color swatches and a text prompt: "Choose form the wide collection of colors and varieties". A "Path:" field is located at the bottom of the tooltip editor.

Customer View:

On the frontend, customers can view the tooltip on the product list page, product view page, and in the additional information tab.

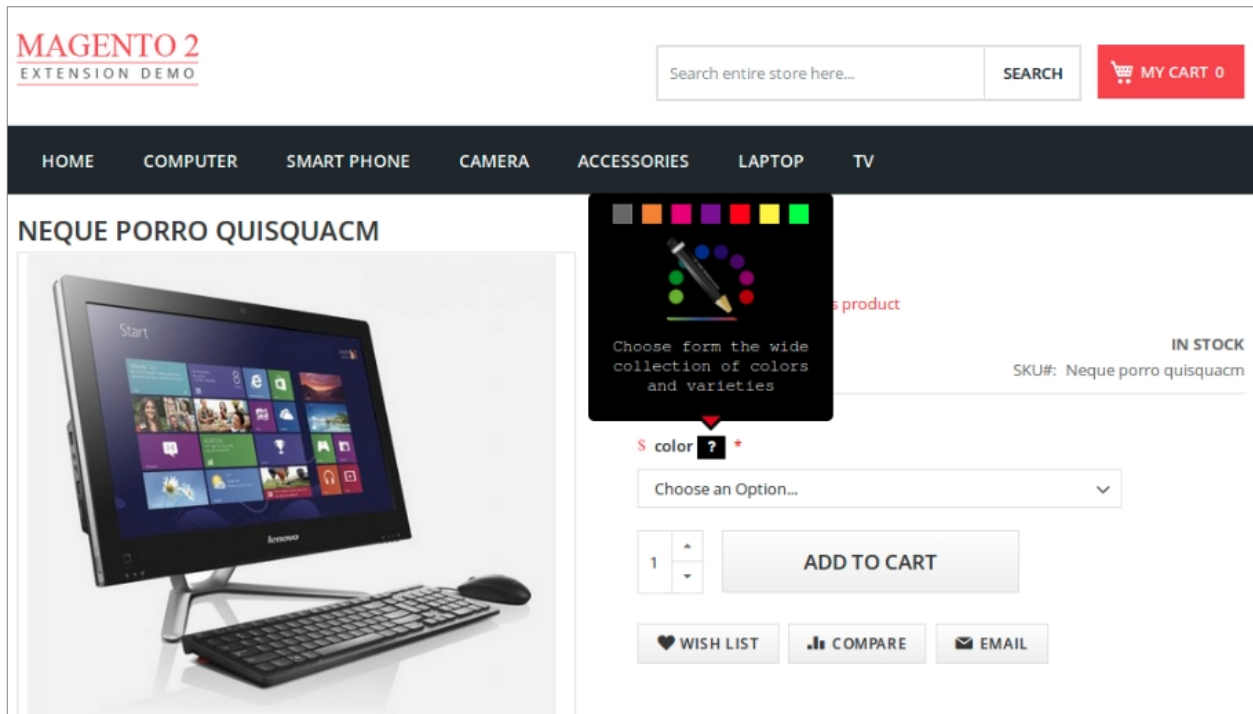

1. On Product List Page.

The below screenshot shows the attribute tooltip (top position) in the sidebar on the product list page.

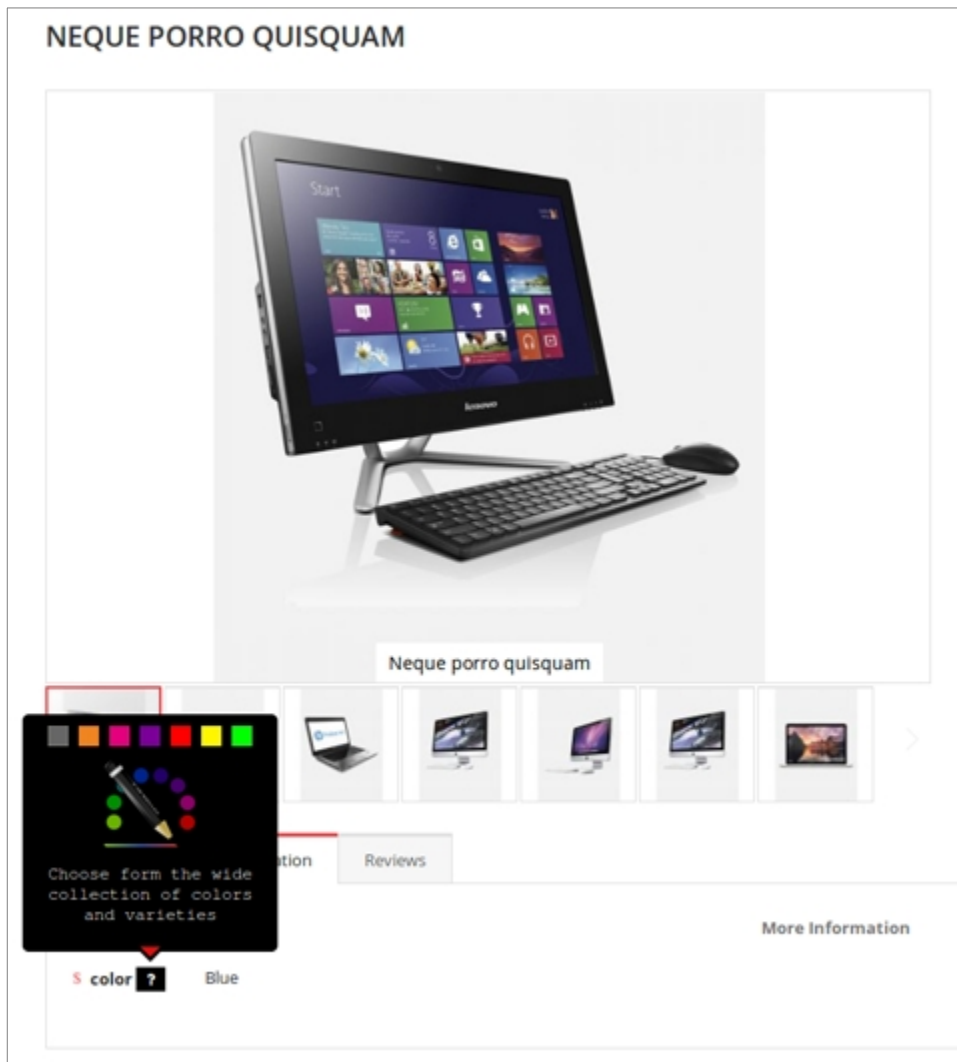

2. On Product View Page – with Configurable Product.

The below screenshot shows the attribute tooltip (top position) on the product view page.

3. On Product View Page - Additional Information Tab.

The below screenshot shows the attribute tooltip (top position) on the product view page additional information tab.
