

Yedpay for Magento Extension Installation Guide

Description

Yedpay for Magento allows merchants to use Alipay, WeChat Pay, UnionPay, Visa and Mastercard payment on your E-commerce store in a safe way.

Install from zip

1. Download yedpay-for-magento extension.
2. Navigate to your Magento store root folder.
3. Create Yedpay for Magento path.

```
path_to_your_Magento_directory/app/code/Yedpay/YedpayMagento
```

4. Extract the module content to the folder.

```
path_to_your_Magento_directory/app/code/Yedpay/YedpayMagento
```

5. Install Yedpay PHP Library.

```
composer require yedpay/php-library
```

6. Set up Yedpay for Magento Module:

```
php bin/Magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento cache:flush
```

7. If you are running Yedpay for Magento on production, run

```
php bin/magento setup:static-content:deploy
```

8. Log out from Magento admin panel and login again. You will see Yedpay at *"Stores" > "Configuration" > "Sales" > "Payment Methods" > "Other Payment Methods"*.

Configuration

1. In Magento Admin Page, navigate to "Configuration" (Stores > Configuration).
2. Select "Sales", then "Payment Methods".
3. At "Other Payment Methods", locate Yedpay and select "Yes" for Enabled.
4. Enter "Sign Key" and "API Key"
5. For "Environment", select "Staging" for testing, "Production" for production.
6. Click the "Save Config" button.
